

STARLIGHT
DISTILLERY

SIMON'S 1794 AMERICAN DRY GIN

Simon's 1794 American Dry Gin is Starlight Distillery's signature gin, named after 1st generation Huber, Simon Huber. 1794 represents the birth year of Simon Huber, founder of the Huber Estate.

Distilled in small batches on our 80-gallon Christian Carl pot still, our contemporary style gin incorporates bright citrus flavors with classic juniper/floral notes, creating a clear carefully crafted gin. Starlight Distillery sources the highest quality botanicals possible from our estate, local growers and across the world. Our production process incorporates 12 unique botanicals and is styled as an American Dry Gin.

The result is a sustainably crafted small batch 92.4 proof gin displaying distinctive hints of juniper, citrus, and finishing with a subtle spice note to round out the softness. This carefully crafted gin makes for extraordinary craft cocktails and is the perfect addition to a craft cocktail bar's well program.
