STARLIGHT

DISTILLERY

31 STARS VODKA

Starlight Distillery's carefully crafted 31 Stars Vodka is a true celebration of all things Starlight Distillery. Named after our distilled spirits plant number for Indiana (DSP-IN-31) and the community in which the distillery resides, Starlight, Indiana.

31 Stars Vodka goes from grain to bottle, starting with non-GMO heirloom corn which is grown, milled, mashed, distilled, and bottled on the 700+ acre Huber estate located in Starlight, Indiana.

The result is a sustainably crafted small batch 80-proof vodka that is distilled in a copper pot still up to 7 times on the Huber farm. Distilled to its purest form, 31 Stars Vodka represents a modern age, smooth craft vodka that is to be enjoyed on the rocks or in extraordinary craft cocktails.
