SIMON'S 1794 BARREL FINISHED GIN

Simon's 1794 Barrel Finished American Dry Gin is a unique variation of Starlight Distillery's signature gin, named after 1st generation Huber, Simon Huber. 1794 represents the birth year of Simon Huber, founder of the Huber Estate.

Distilled in small batches on our 80-gallon Christian Carl pot still, our contemporary style gin incorporates bright citrus flavors with classic juniper/floral notes, creating a clear carefully crafted gin. Starlight Distillery sources the highest quality botanicals possible from our estate, local growers and across the world. Our production process incorporates 12 unique botanicals and is styled as an American Dry Gin that is then aged in used Starlight Distillery brandy and whiskey casks.

The result is a sustainably crafted small batch barrel finished 92.4 proof gin displaying distinctive hints of juniper, citrus, and finishing with subtle oak and vanilla spice notes to round out the softness. This carefully crafted barrel finished gin makes for extraordinary craft cocktails.
